

# Homework is a Waste of Time!!!

It is time that we all agreed that homework is a big waste of time!!! Here are some reasons why. Students have already spent six hours at school; they need a break. You could fit in more time for sport and afternoon activities, and catch up on your sleep and relaxation, which is vital.

To begin with, students have already used their hard thinking brains for too long during a school day, they don't need to think more by completing homework! Doctors state that there needs to be a balance between work and play.

Also, as stated, instead of doing homework you could be playing afternoon activities and keeping fit! Everybody loves going outside and playing with their pets and with their family! Experts also agree that physical activity is vital for children's mental health.

My last argument is that you also need a fair amount of sleep. Homework makes you tired. If you get lots of homework, you wouldn't get enough relaxation or sleep time. Everybody is always tired when they get home from school. Doctors state that children should have at least 8 hours of sleep a day, not 8 hours of work a day.

Surely, you would now agree that homework is a big waste of time! Students have already spent too long at school and they don't need more work! They should be doing afternoon activities instead and be getting more sleep and relaxation. I hope I have convinced you that homework should be banned!!
